

DAILY GAZETTE

WEDNESDAY, JUNE 29, 1921.

GAZETTE CLEANINGS.

The reports of the pupils of the Academy will be out to-day.

J. W. Barney has a large number of very fine specimens of rock from the Mineral Hill district.

We have received an invitation to attend the grand opening ball of the Hotel Maden, Albuquerque, this evening.

Quite a number of people in Las Vegas are interested in the Commencement at Oberlin (Ohio) College that takes place to-day.

W. H. Shupp sold one of his hand-some covered spring wagons to V. W. Parker to be used on the mail line from Springer to Cimarron.

The new market house erecting by order of the county commissioners in south Santa Fe is nearly completed. Our board should copy Santa Fe.

To judge from the throng of people continually pouring into Herbert's east side drug store for soda water one would take this for a temperance town.

Jud. Credit has the mining fever. He claims to have one of the richest mines yet discovered in this vicinity. The lead is situated in the Tecolote mountains.

Work will be immediately begun on two new round houses by the A. T. & S. F. R. R., one at El Paso and another at Deming. They will each be eight stall houses.

The Adams Express company has a new four-wheeled truck. Some people expected that the next new vehicle that "Doc" West secured would be a baby carriage.

We take pleasure in calling attention to the legal card of G. F. Neill of El Paso, Texas. Mr. Neill is an energetic young lawyer and is doing a rushing business.

It is reported that the landlord of the new hotel at the Hot Springs has been settled on. If lightning strikes where we think it will, we can vouch for a good house.

Several men have jumped the ranks of workmen bound for the A. & P. front in this city. They found it hot enough for them here, and didn't care to take their chances in Arizona.

Patty, the tinner, has a couple of new inventions which are indispensable to the household. One is a flour and meal sifter and the other a clothes sprinkler. Both are neat and convenient contrivances.

There is work in plenty on the line of the A. & P. R. R. About 2,000 men are needed by the various contractors and R. A. Halloran, inspector of construction has been in Chicago for some time drumming up men.

W. H. Shupp has ordered a car load of wagons for this market. They are the Cooper steel skein wagon, built to order and according to Shupp's directions, as he has accurate knowledge as to what strong points a wagon should have for this country.

The new depot of the Santa Fe R. R. at El Paso will be the best in the southern country. It will not be as barnished as most of the station houses, being very neat architecturally, and at one end will have a high-toned balcony. Work will begin as soon as the plans reach there.

The "El Paso," the second of the two new sleeping cars that have been put on the A. T. & S. F. will go up to-day. It is as fine a car of the class as runs on any line in the country. It is furnished in fine style, and among other improvements are two smoking rooms, one at either end of the car.

It is not unlikely that the officials of the A. T. & S. F. may further extend the courtesy of the road to the El Paso pilgrims, one hundred and fifty in number, who are to take a free ride to Santa Fe July 8-5. It is probable that the El Paso people may be permitted to continue their journey to Las Vegas free of charge.

R. S. Fetters, a carrier boy on the GAZETTE early yesterday morning while rushing down to the office ran a long rusty nail into his foot on the aqueduct bridge. Judge Blanchard heard his cries of pain and acted the part of the good samaritan, pulling the nail out of the boys foot and trundling him home in a wheelbarrow.

Governor Sheldon has appointed Hon. Wm. Breeden Attorney General of New Mexico, vice Breeden resigned. The question of the Attorney Generalship has been a long contested one and for months the territory has been without any such officer. Governor Sheldon determined quickly that he must have the vacancy filled and yesterday he re-instated Col. Breeden in the office.—New Mexican.

The contract for building the Las Vegas Academy has not yet been let, the directors waiting for word from the New West Educational Commission to learn when the \$3,000 to be donated by the commission will be paid. Yesterday Prof. Ashley received a telegram from Chicago stating that a meeting of the board of control would be held in that city to-morrow, when this important question will come up for consideration.

The Wreck.

Considerable has been written about the wreck which took place on the A. T. & S. F. road, two miles north of Las Cruces, but somehow the accounts have not been strictly correct. Mr. Murdock of the Topeka Commonwealth, gives the following account of the affair: The wreck took place about two miles north of Las Cruces, instead of south. An irrigating ditch which had been used for flooding the crops was allowed to remain open. The railroad grade formed a dam, and the water accumulated to a considerable depth on the fields above, covering, it is thought, nearly fifteen acres of ground. The water had either washed its way through the grade or the Mexicans had opened a place through the grade to allow it to escape. At any rate, when the water got fairly started it washed away a considerable amount of the road bed, thus allowing the ties and rails to have no support. But as the rails did not sag down much the engineer did not discover the break until he got right on to it. The engine and baggage car passed over with but little damage. The passenger coach, however, was badly shaken up, but did not turn over, as was reported. Rev. Murphy, of this place, was badly shocked, but not seriously injured. Mr. Murdock received the worst injuries. He was sleeping near the middle of the car when the accident happened. Being a very corpulent man, he was thrown heavily against the seats and considerably injured in the back. He was insensible for several hours, and is not entirely well yet. The train was running at its usual rate, and no blame is attached to any of the employees, as the break could not possibly have been discovered until too late.

A. T. & S. F. and Southern Pacific Combination.

General Manager Strong and General Freight Agent Goddard, of the A. T. & S. F. R. R., have been in Boston for several days conferring with Vice-President Huntington and General Manager Towne, of the Southern Pacific R. R. The object of the conference is to settle the question of freight rates over the two lines. It will be remembered that some two months ago, there was a rupture between the two roads, and the management of each refused to haul freight for the other line. The real bone of contention was not as has been reported, the regulation of the tariff on through freight, but was instead the question of way freight for Arizona and New Mexico freight. As the A. T. & S. F. officials are expected to return to Topeka by the 5th of July, we may expect now in a few days a new circular of rates to be issued by Mr. Goddard. It is considered more than probable that a consolidation has been formed in order that the southern transcontinental route may prove a more formidable rival to Jay Gould.

Silver in the White Mountains.

George Cook, who is kindly remembered by many of our people having spent the winter in this city, writes encouragingly of a recent silver strike that he has made in the White Mountains near the White Oaks camp. He has always had great faith that the White Mountains would turn out remarkably rich in mineral. With two companions he made a thorough prospecting tour through the mountains and was rewarded by discovering what he terms "the only big silver mine in the district." He has struck several big leads and the surface rock assays from ten to thirty ounces in silver. As high as two ounces in gold has been secured on several returns, but the claims will turn out to be rich in silver he thinks. The new finds are only about thirty miles from the White Oaks camp, and the boys are making preparations to stay by their claims and work them for all they are worth. George's many friends will be glad to learn of his good fortune.

Wm. Williams, who was injured a few weeks ago by the falling wall of a cabin that he was assisting in erecting in the Mineral Hill district, was brought to this city yesterday. He had been removed to the Junction House a few days before, and leaving there at 11 o'clock reached here about three o'clock in the afternoon. Everything was made as comfortable as possible for him in the back and he stood his journey well. It is expected that his improvement will be very rapid now, for he can have more comforts in the city than in the camp, although the kind-hearted boys in the district paid him every attention and did all in their power to minister to his comfort.

Big Gold Nugget.

Mr. M. Brunswick yesterday received a letter from his partner, J. A. LaRue, and with other good news concerning the "Homestake" mine at White Oaks, in which they are interested, came the intelligence that a few days ago a gold nugget weighing half a pound had been dug out of the shaft. Men are at work under Superintendent Walters developing the mine, and are sinking the shaft through pay ore.

Dutch Picnic.

Our German friends are talking of a picnic on the Fourth of July. The grounds selected are about a mile and a half up the river. A German flag has been made for the occasion. A platform will be built in a shady place and we have no doubt but what the occasion will be an unusually social one.

JULY FOURTH.

A Glorious Celebration Promised.

At a meeting of citizens last night at the store room of H. Romero & Bro., in order to devise ways and means to celebrate the 4th of July in this city the following proceedings were had:

B. Romero was elected president, R. A. Kistler secretary, F. O. Kihlberg treasurer. O. L. Houghton and F. O. Kihlberg were appointed a committee on Subscription to secure funds for the purpose of defraying expenses. This committee will also circulate a petition to have the business close up on that day. The scope and magnitude of the celebration will be determined largely by the amount of money raised to defray expenses. The meeting adjourned until to-night when committees will be appointed on the following subjects respectively: On parade, on greased pole, on music, wheelbarrow race, sack race and greased pig.

There should be a full turn out to-night and all take hold and give a helping hand to this worthy purpose.

Music by the bands and bonfires on the plaza Sunday evening will initiate the performance.

"The Kid" in Texas.

Had the people of the territory believed all the stories published in the territorial press, concerning the movements of Billy "the Kid" after his escape from Lincoln, they would be apt to attribute to him omniscience, together with all his other accomplishments. A few days ago we published the report of a gentleman who met Billy down the Pecos, and who stated that he was on his way to Texas. The following special despatch to the St. Louis Globe-Democrat from Stockton, Texas, of Saturday gives a clue to the whereabouts of the daring young fellow: "The New Mexican desperado known as 'the Kid' is reported to be in this vicinity with a band of twenty or twenty-five well-mounted and well-armed men. A gentleman named Krimkon was shot at on the Pecos River last Sunday by a supposed member of the Kid's band. The ball passed through Mr. Krimkon's clothing. Although this is the only act of violence reported so far, the presence of the Kid in any community is considered the signal for bloodshed and acts of lawlessness."

Academy Exhibition.

The public exhibition of the pupils of Las Vegas Academy at Baca Hall last evening was well attended. The following programme was carried out, the participants acquitting themselves well:

Recitation—Thanksgiving, scholars of the First and Second Reader class.

Piano duet, Belle Teats and Annie Phipps.

Declamation—In the Years That Are to Come, Willie Hilton.

Recitation—The Poet, Anna Sloan.

Piano Solo—Belle Teats.

Recitation—Little Brown Hands, Third Reader Class.

Declamation—The Statue, Earl Hollingsworth.

Violin Solo, Jakey Sulzbacher.

Declamation—Freedom of the Press, Epifanio Escudero.

Recitation—Bay Billy, Josie Stoops.

Piano Trio, Belle Teats, Carrie Leon and Mollie Garrard.

Declamation—The Independence Bell, Albert Wood.

Essay—Language, Bettie Garrard.

Piano Duet, Jakey and Rachel Sulzbacher.

Recitation—Asleep at the Switch, Ada Allen.

Piano Duet, Jennie Cosgrove and Belle Teats.

Recitation—Songs of Seven, Bessie Stoops, Hattie Wood, Josie Stoops, Mollie Garrard and Bettie Garrard.

Song—Brother Jonathan's Welcome, John Sutfin, Frank Blake, Ed Hybbell and Marvin Klattenhoff.

In the suit of the Texas-Pacific R. R. against the Southern Pacific R. R. now on trial in Santa Fe before Judge Bristol for possession of the latter's road, the S. P. has made an offer to end the case. The Southern Pacific proposed to pay the Texas Pacific the value of the land over which its line runs, the T. P. holding the land grant. The latest proposition of the S. P. is to deposit a million dollars as security for the payment of the road at the figures fixed by the court. The Texas-Pacific officials have not as yet returned any answer as to whether or not they will accept the proposition.

There are conflicting reports as to who will be the lucky landlord of the new depot hotel at Deming. The announcement is made that Fred Harvey, who so successfully and satisfactorily runs the railroad eating houses along the line of the A. T. & S. F., is to have it. But report comes from the Southern Pacific road that a cousin of Gov. Stanford is the lessee. We hope for the sake of the travelling public that Mr. Harvey will run the hotel, for the prototype of Stanford is said to have made a flat failure of the hotel business in California.

Quite an excitement was created the other day on Centre street. Two gentlemen were walking up the street and noticed that there was quite a crowd of men, twenty ladies more or less, and numerous small boys following them. They turned to ascertain the cause, and found it was the elegant flavor of those Havana cigars obtained at the shooting gallery.

PERSONAL.

Mrs. Walters is up from Pecos.

Jacob Beard is up from Socorro.

Henry Cowherd of Lee's Summit is in town.

A. C. Daniels, of Chicago is at the Sumner House.

J. H. Van Nest of Denver, is stopping at the St. Nicholas.

Mr. Fleitz of the firm of Overhuls & Fleitz is in the city.

A. D.B. Bishop of St. Louis, is stopping at the St. Nicholas.

Col. J. A. Lockhart went down to San Marcial yesterday.

Frank Weber, the auctioneer, got back from his trip north yesterday.

I. H. Herbert came back from his suburban residence in Santa Fe yesterday.

Chief Engineer A. A. Robinson left for the southern country yesterday to be absent till Sunday.

W. H. Hill, material agent of the A. T. & S. F. at San Marcial, stopped off in this city yesterday on his way east with his family.

Bishop Dunlop, who preached in Albuquerque on Sunday, had intended coming to Las Vegas but being sick, returned home to Santa Fe.

Cashier Gage at the Depot has been suffering from an attack of rheumatism for several days. He took the right course, went to the Springs, and is improving rapidly.

F. M. Speare of Speare Bros., San Marcial, is in the city. Improvements are going ahead at San Marcial and the fire will not prove of any great permanent injury to them.

T. E. Gore, formerly operator on the construction train and who was injured in the railroad accident on the Santa Fe branch on Christmas Eve, returned from the east yesterday, much improved in health.

Col. T. B. Mills went down to San Marcial yesterday to meet Mr. H. C. Keller, general agent of the Star and Union insurance companies, and assist in the settlement of the losses of those companies from the recent conflagration.

F. M. Speare Esq. of San Marcial came up yesterday with his wife. Mrs. Speare is in ill health and they will spend several days at the Hot Springs in the hope that she may derive benefit from a sojourn at our wonderful sanitarium.

Joel Hunton Jr., the surveyor who made a survey of the old town at an early date is just up from Sonora. He has been engaged with Morely on engineer work on the Sonora branch. He came through directly from Hermosillo on a reconnaissance from that town to the Rio Grande. He does not expect to go back and states that many men are leaving there on account of the excessive heat.

Linburger Cheese

at J. Graaf & Co.'s.

Grand Lunch

every Saturday night at the Exchange Saloon.

Graham Bread.

Fresh every day at J. Graaf & Co's old reliable bakery.

Repairing furniture in first class style by Robert Frey & Co. East Las Vegas.
